

Future-Ready Financing

“

Now, more than ever, customers desire an experience that enables them to lease a vehicle **wherever** and **whenever** they need.

”

Accelerate

THE INDUSTRY SPECIFIC END-TO-END PLATFORM

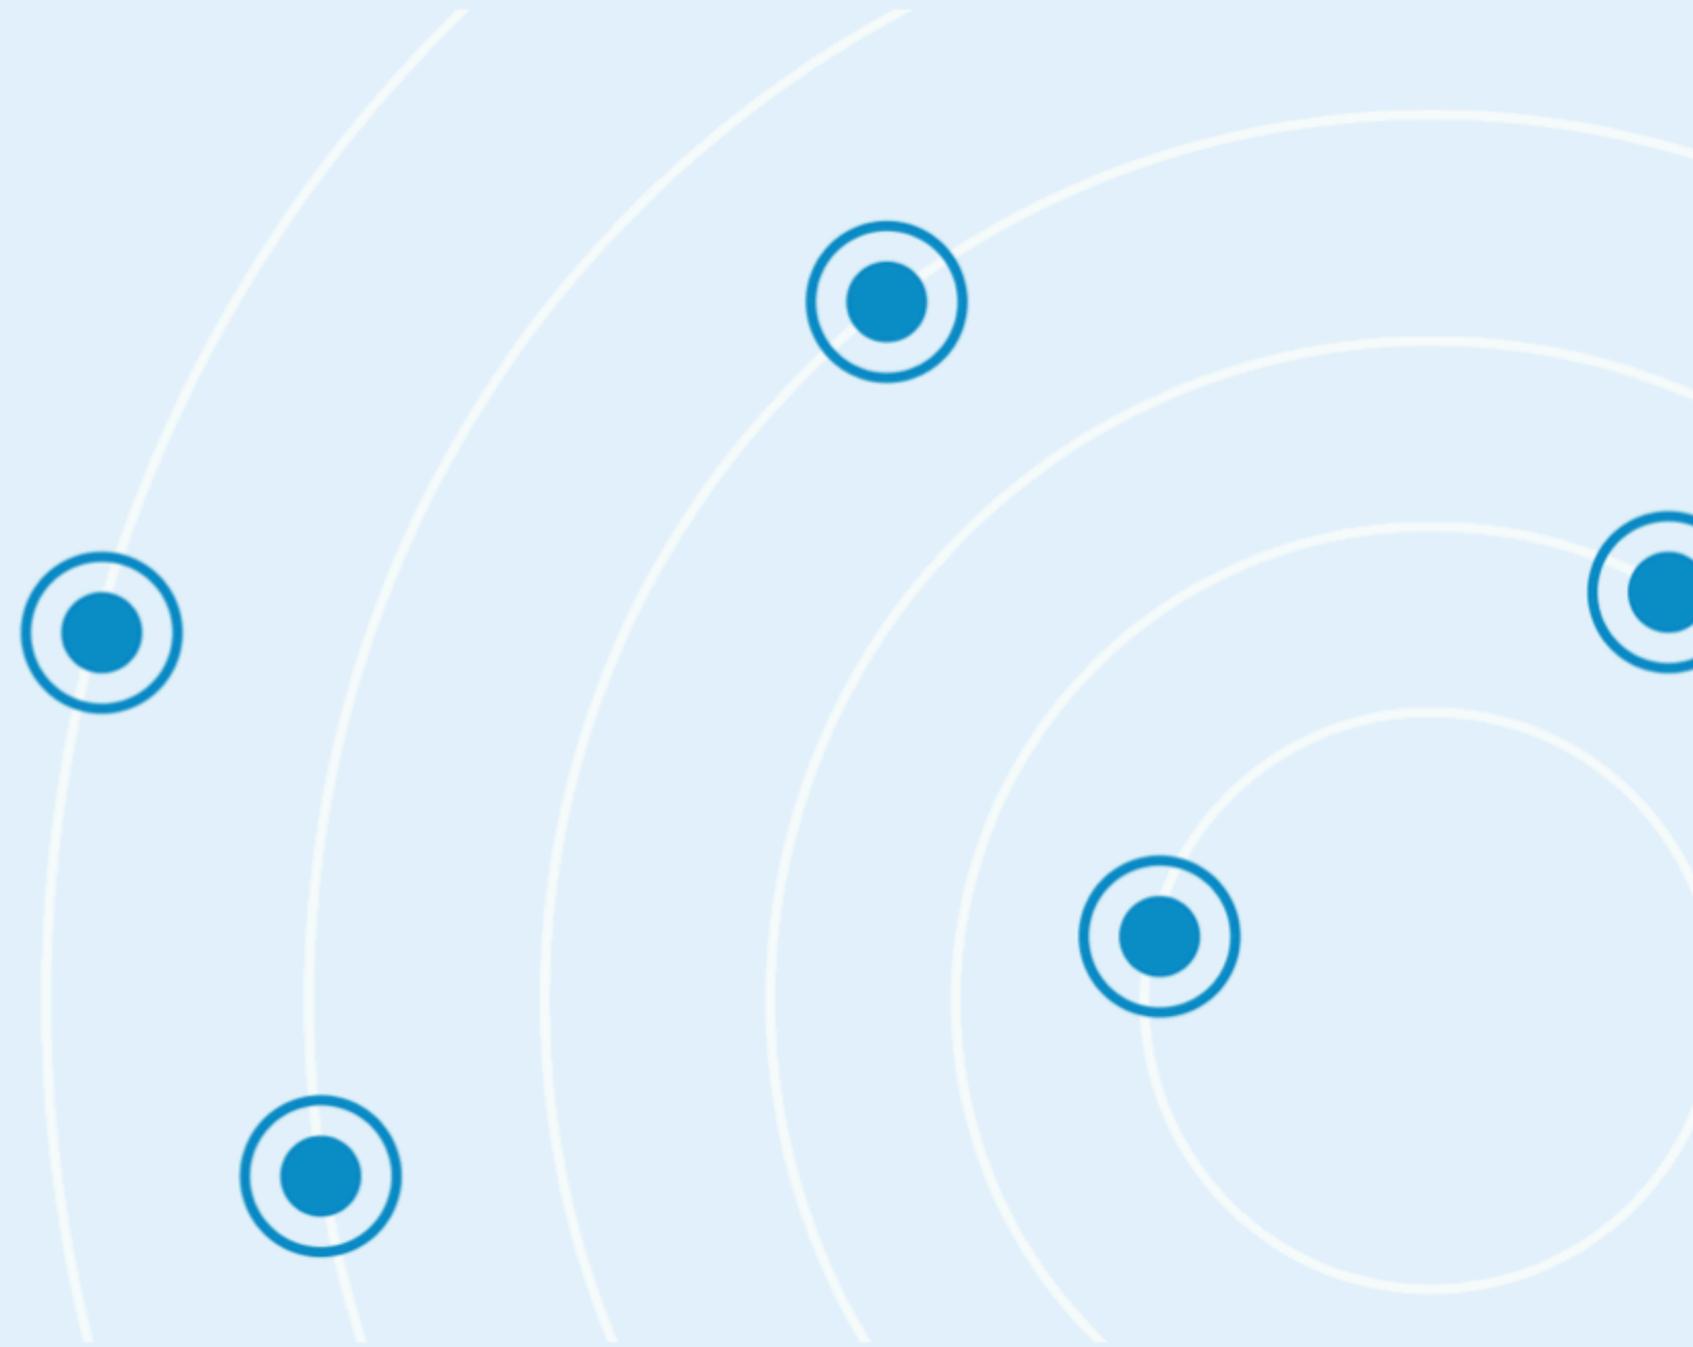

QV Systems

THE FUTURE-READY FINANCING
AND LEASING PLATFORM

QV Systems connects the dots between Brokers, Dealers, Funders, OEMs, and their Customers

ROD LLOYD, MANAGING DIRECTOR, LOW COST VANS

“Since working with QV Systems, we’ve seen **77% rise in our renewal conversions** due to us having **full contract management and effective in life touch points generated by the system**. The functionality, which has evolved over time, has allowed us to stay in contact with our customers, which is always **reflected in our five star Feefo reviews**.”

ADAM CARTER, DIRECTOR, VANAWAYS

“QV Systems’ Accelerate platform allows us to **make it as easy as possible for our customers to do business with us**, which is why we have been working with them since 2017. We’ve always invested heavily in streamlining our customer process, and we’re able to **tweak and personalise our QV system to ensure that our customers have the best experience**. In making the process so customer friendly, we’ve managed to actually deal with a construction firm whilst they are still top of the roof, fixing it. **All the way from enquiry through to signed order form without ever having to touch foot on the ground**, which really shows the versatility of QV’s system and that’s why we love it and use it to this day”

STUART ADAM, DIRECTOR, VAVOOM

“We’ve been working with QV Systems for 6 months now, which is **from our inception**. Utilising QV Systems from the start of our journey has allowed us to **operate as seamlessly as our well-established competitors**. The intuition Accelerate offers our team internally, and the integration into our website **provides a fantastic digital journey for both our team members and clients, from quote to delivery and during the life of the vehicles too**. It consequently **makes our team much more efficient therefore driving a higher sales penetration.**”

WILL BULLEN, MARKETING MANAGER, WESSEX FLEET

“We've been working with QV Systems since late 2020 and we've see some **great improvements since bringing their Accelerate platform on board**. Most notably, we've seen our **sales advisors convert at a far higher rate than pre-QV. On average around 10% to 15% better across our team**. This is namely down to the **smooth workflow process** we're about to implement into the system, which allows us to **get back to the customer far quicker** than we have previously. In addition to this, **the automated processes and cloud functionality have hugely helped us during the pandemic**, allowing us to be a fully remote company while still maintaining the highest levels of connectivity and customer service.”

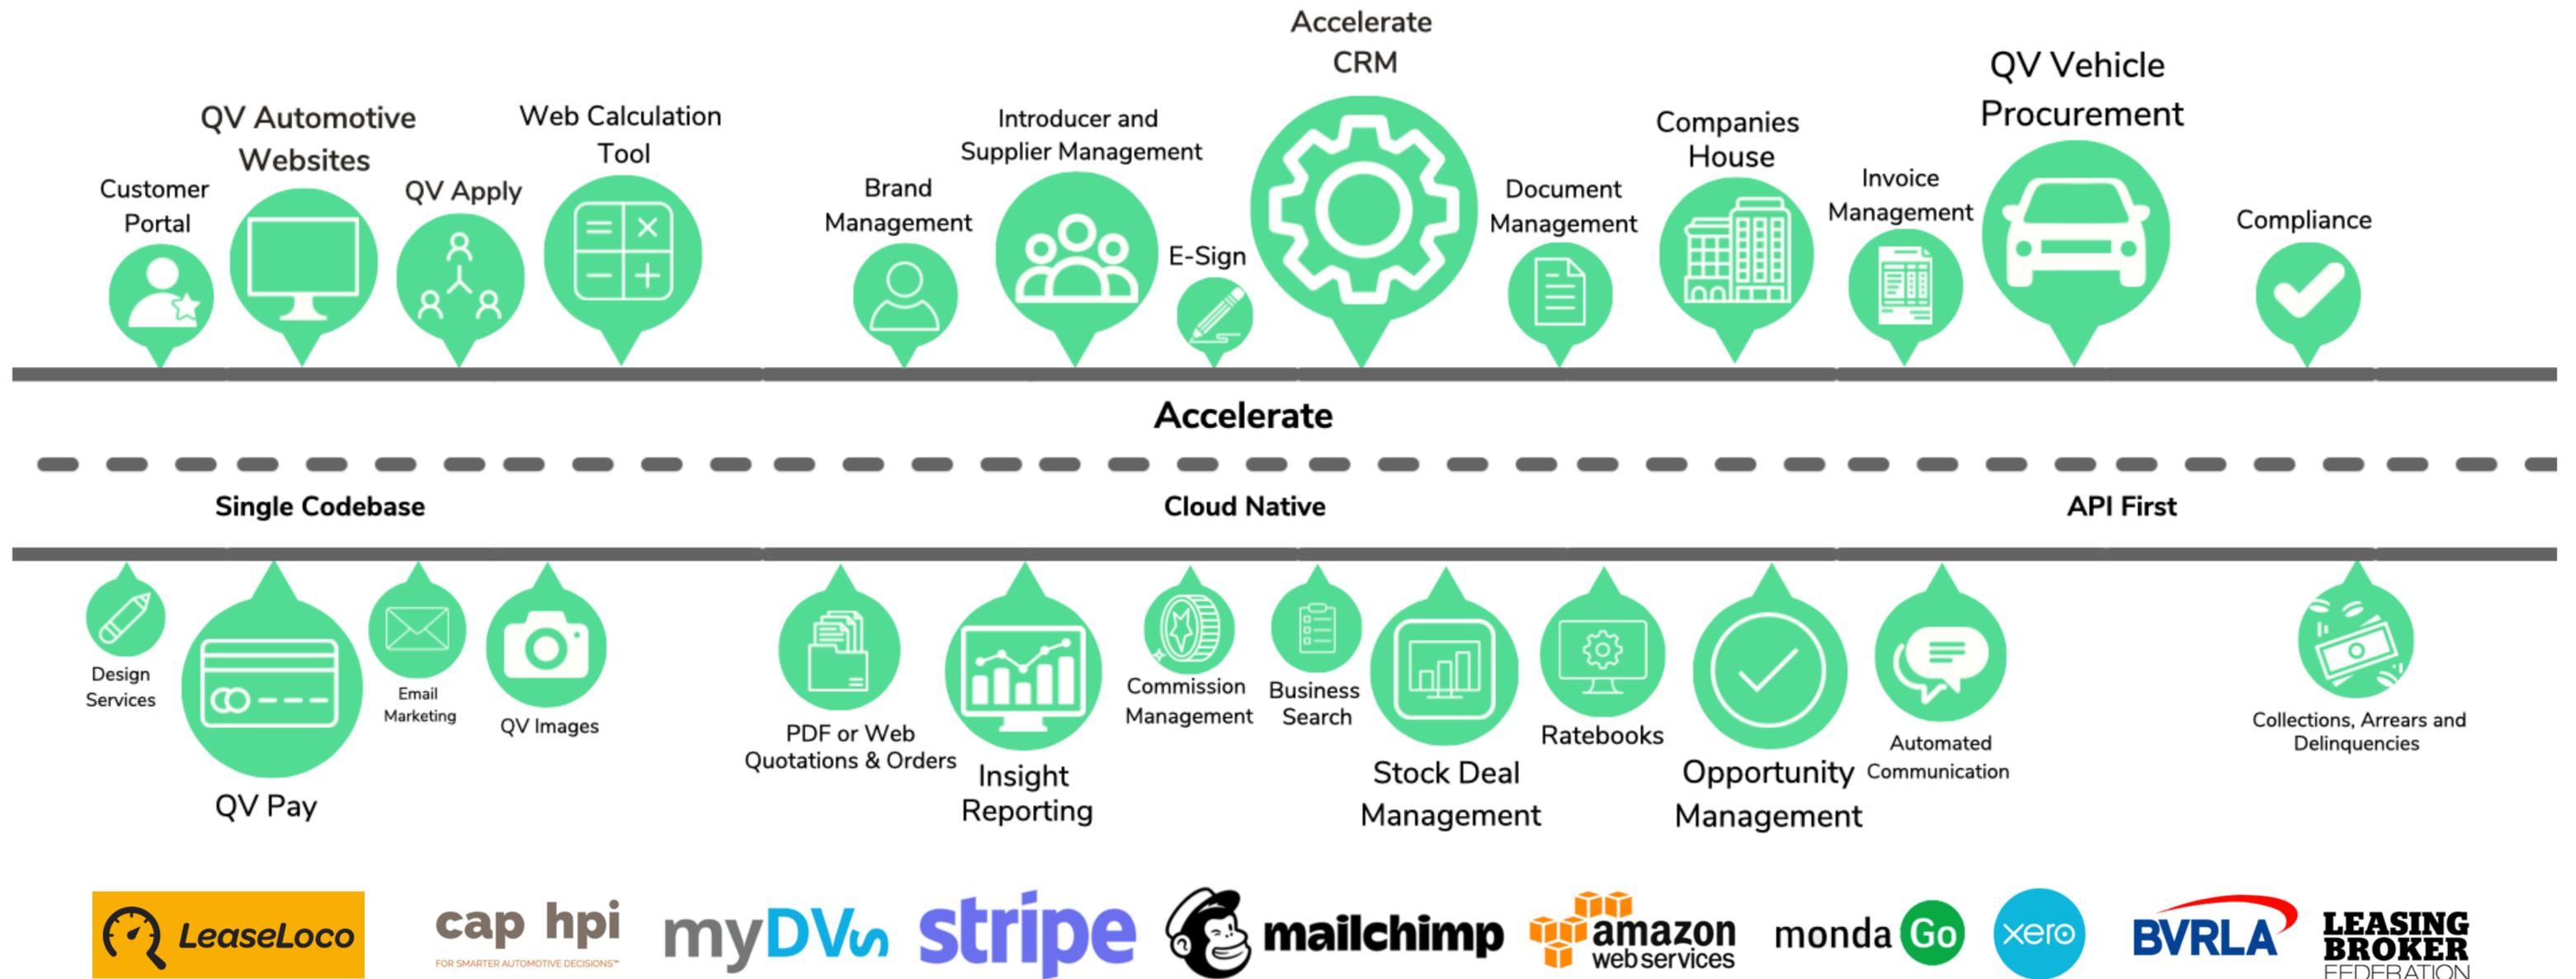

STEVE COX, HEAD OF BROKER, LEX AUTOLEASE

“We recognise the importance that Fintechs like QV Systems have in the broker ecosystem. A number of our brokers use them and take advantage of their end to end systems, allowing them to do what they do best.

From our perspective, it gives us consistency with regulatory standards, which of course makes it easier from an oversight perspective.”
