

TOM Forums 2019 Subscription

The Technical and Operational Management forum covers the operational aspects of a rental and leasing company's business, including vehicle ordering, purchasing, specification, licencing and recalls. The forum exists to encourage discussion and debate issues surrounding vehicle service, maintenance and repair, helping to ensure driver and pedestrian safety because inadequate or poor maintenance routines can significantly impact a vehicle's driving performance and increase the level of risk for clients. Only BVRLA members are eligible to attend the forums.
